

**RE: THANK YOU FROM THE PRESIDENT OF HONEY-B-HEALTHY, INC.**

Dear \_\_\_\_\_:

You have been important to our product's success and I thank you very much for purchasing HONEY-B-HEALTHY®. As HONEY-B-HEALTHY® enters its tenth year on the market, we have seen many changes in the beekeeping business---not the least of which is the struggle so many of the pollinators and honey producers are experiencing with the problems keeping healthy bees. Because so many of our beekeeping clients depend on their bees for their livelihood, we at Honey-B-Healthy, Inc. strive to insure that you receive the superior product expected with each order.

When considering a treatment program, consider the following:

- HONEY-B-HEALTHY® is used by many of the world's largest commercial beekeepers to protect their investment.
- At about 10¢ per treatment, HONEY-B-HEALTHY® is the cost-effective way to help keep your colonies healthy and functional throughout the season.
- There are about 4000 drench or quart feeding treatments in a 5-gallon bucket of HONEY-B-HEALTHY®. A gallon has approximately 800 treatments and our pint has 100 treatments.
- Using only certified ingredients, HONEY-B-HEALTHY® is produced in a modern; state-of-the-art FDA licensed food manufacturing facility under strict GMP guidelines. Only after passing our quality assurance tests, including live hives, is each production lot released for distribution.
- We have seen some homemade concoctions and at least one commercial attempt to duplicate our product but they have fallen far short of the original HONEY-B-HEALTHY® formula. The differences are important.
- HONEY-B-HEALTHY® is still considered by most in commercial beekeeping to be the best quality product on the market that continually shows excellent results consistently at an attractive cost.

So, if you have any questions or need additional information, please don't hesitate to give me a call--- I'd like to hear from you.

Very truly yours,

RCN
