

HONEY

B

HEALTHY[®]

Makes Up To
96 Feedings or
Drenches

The Original

Feeding Stimulant

With Essential Oils

Helps Your Hives to Thrive![®]

16 fl. oz. (480ml)

Uses: As a feeding stimulant or drench during early spring, fall or dearths of nectar. Helps when used as a spray in sugar water instead of smoke to calm bees and to combine weak colonies. Also, spraying on new plastic foundation helps encourage acceptance.

DIRECTIONS: MIX OR SHAKE WELL BEFORE USING. KEEP FROM FREEZING. FEED WITH HONEY SUPERS REMOVED.

A 16 oz. bottle makes up to 96 eight ounce drench treatments at 4 tsp. (20ml) Honey-B-Healthy[®] per quart 1:1 sugar water or 96 quarts (24 gallons) of recommended feeding mix at 1 tsp. (5ml) Honey-B-Healthy[®] per quart sugar syrup which can be increased to 2 tsp. (10ml) Honey-B-Healthy[®] per quart of sugar syrup. To use Honey-B-Healthy[®] as a spray to calm or entice bees to work plastic foundation, use the drench dose. For drenching, apply 8 oz. more or less (depending on the size of the colony) 3 - 4 times a few days apart to the brood area by spraying or drizzling the mix on the bees and between the brood frames.

Contains: Sucrose, Water, Spearmint Oil, Lemongrass Oil, Lecithin, and Sodium Lauryl Sulfate.

WARNINGS: KEEP OUT OF REACH OF CHILDREN. KEEP TIGHTLY SEALED.

If accidentally ingested seek medical help. User assumes full liability of use.
